

THE PANTHEON OF

SQUARE

HYGIEIA

- Bi-Directional
- 2.75" x 2.75" profile
- Polished machined aluminum end caps
- UVC Capable
- Tunable white capable
- RGBW available

AEGLE

- 2.75" x 2.75" profile
- Polished machined aluminum end caps
- Customizable accent piece
- UVC Capable
- Tunable white capable
- RGBW available

RECTANGLE

ATHENA

- 2.75" x 3.75" profile
- 0.5" Drop lens – both sides
- Polished machined aluminum end caps
- Tunable white capable
- RGBW available

EOS

- 2.75" x 3.25" profile
- 0.5" Drop lens
- Polished machined aluminum end caps
- Customizable accent piece
- UVC Capable
- Tunable white capable
- RGBW available

HERMES

- 4" x 0.50" Wood baffles
- Polished machined aluminum end caps
- Tunable white capable
- RGBW available

HEMERA

- Various standard configurations
- Choice of flush or 0.50" drop lens
- Illuminated corners
- Tunable white capable
- RGBW available

OVAL

APHRODITE

- 3.5" x 5" profile
- Polished machined aluminum end caps
- Customizable fotizo
- Tunable white capable
- RGBW available

APHRODITE MINI

- **COMING SOON!**
- 3.5" x 2.5" profile
- Polished machined aluminum end caps
- Tunable white capable
- RGBW available

TRIANGLE

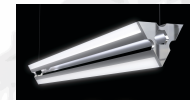

ZEUS

- Multi-directional
- 4" equilateral triangular profile
- Etched machined aluminum end caps
- Hollow luminaire
- Separate controls for direct and indirect lighting options

POSEIDON

- Multi-directional
- 4" equilateral triangular profile
- Polished machined aluminum end caps
- Hollow luminaire
- Separate controls for direct and indirect lighting options

ASTRAPI

- 1.5" equilateral triangle profile
- Polished machined aluminum end caps
- Rotational mount available

ARTIENCE FIXTURES

CLOSED SHAPE

HYPERION

- Available in a 5" or 4" profile
- Polished machined aluminum end caps
- Hollow Luminaire
- Separate controls for direct and indirect lighting options

POLLUX

- 4" x 1.50" profile
- Polished machined aluminum end caps
- Hollow Luminaire
- Separate controls for direct and indirect lighting options

CASTOR

- 4.60" x 1.50" profile
- Polished machined aluminum end caps
- Hollow Luminaire
- Separate controls for direct and indirect lighting options

POLYGON

ATLAS

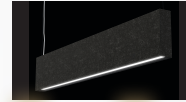

- **COMING SOON!**
- Bi-directional
- 4" x 3.8" profile
- Polished machined aluminum end caps
- Tunable white capable
- Can be suspended with flat aperture direct or indirect

ACOUSTIC

HESYCHIA

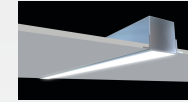

- 12" x 3.75" Profile
- 12mm thick acoustic material
- Class A fire rated
- Tunable white capable
- RGBW available

RECESSED

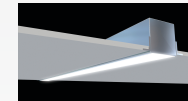

APOLLO

- 2.5" aperture
- Mud in and T-grid mounting
- Tunable white capable
- Continuous light regardless of length

APOLLO 4

- **COMING SOON!**
- 4" aperture
- Mud in and T-grid mounting
- Tunable white capable
- Continuous light regardless of length

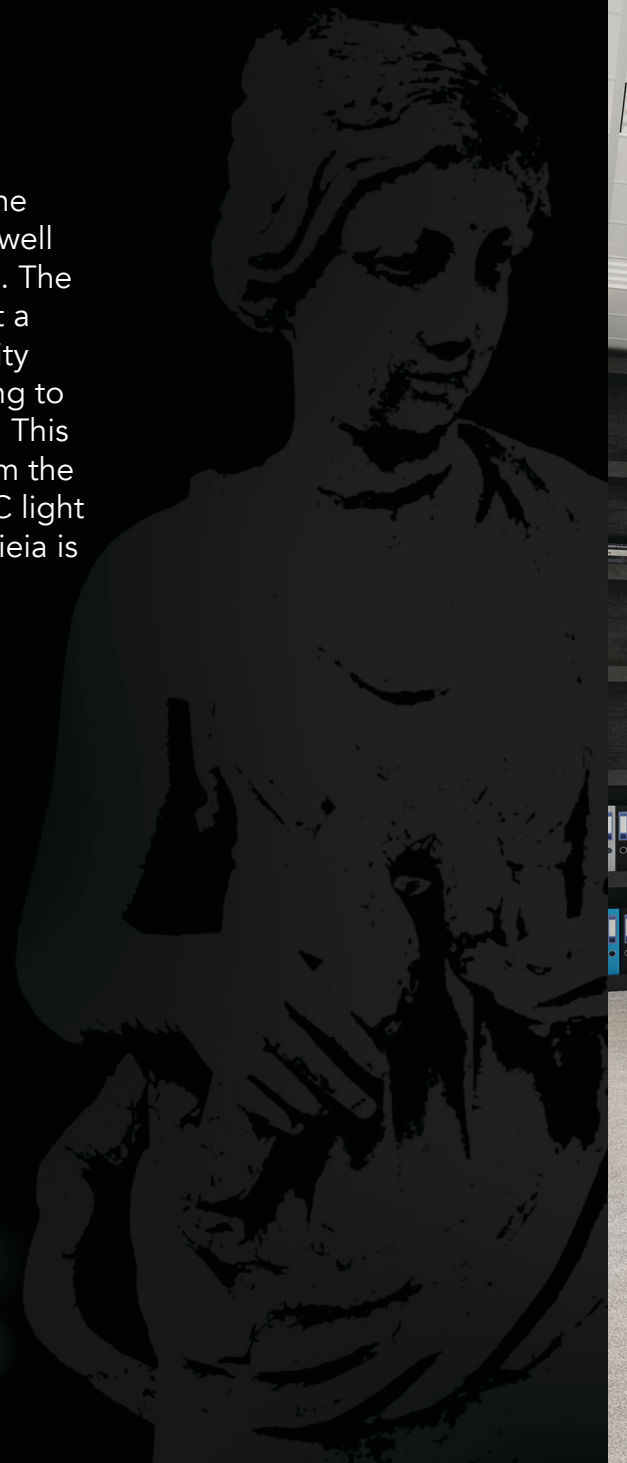

HYGIEIA (hahy-jee-uh)

KEY FEATURES

- Extruded aluminum housing
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty

Hygieia, the goddess of health, cleanliness, and hygiene. Ancient Greeks worshipped Hygieia as she was responsible for the prevention of sickness, as well as the continuation of good health and well-being. The Hygieia by Artience Lighting shares more than just a name with the goddess; Hygieia's beauty and ability to improve health and well-being while also helping to prevent sickness are echoed in the Hygieia fixture. This beautiful luminaire is exquisite in every detail. From the polished, architectural-grade aluminum to the UVC light engines, to its tunable white capabilities. The Hygieia is the beauty of science.

AEGLE (ee-aa-gul)

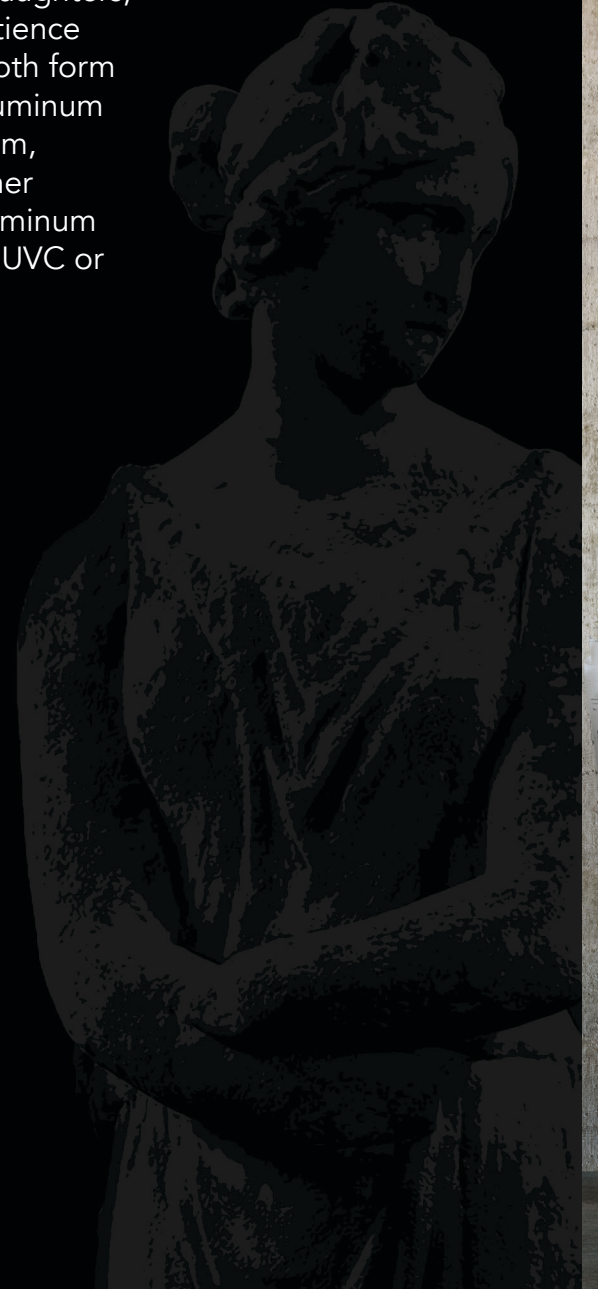

KEY FEATURES

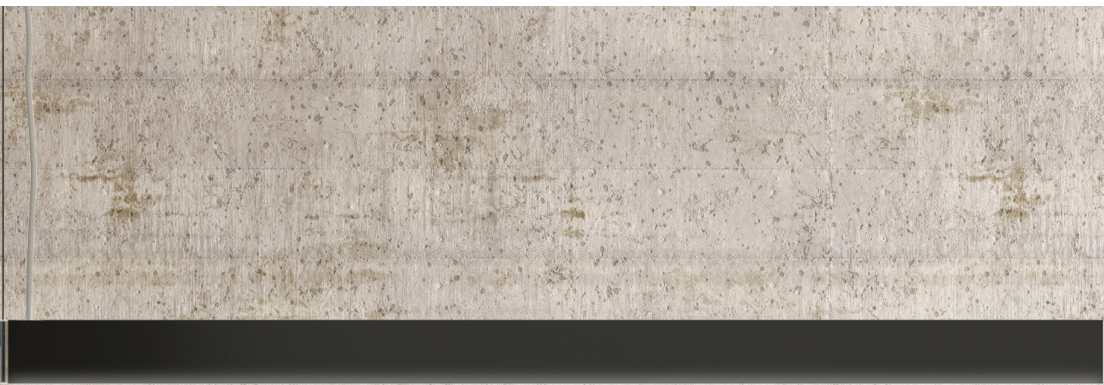

- Extruded aluminum housing
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty

UVC
CAPABLE

Often regarded as the most beautiful of Zeus' daughters, Aegle represents the beauty of good health. Artience Lighting has recreated the beauty of Aegle in both form and function. Aegle's aircraft grade extruded aluminum housing finishes perfectly with polished aluminum, machined end caps. Aegle's beauty can be further enhanced with a contrasting accent piece of aluminum or xýlo. The Aegle can be equipped with either UVC or Tunable White lighting.

ATHENA (uh-theen-ah)

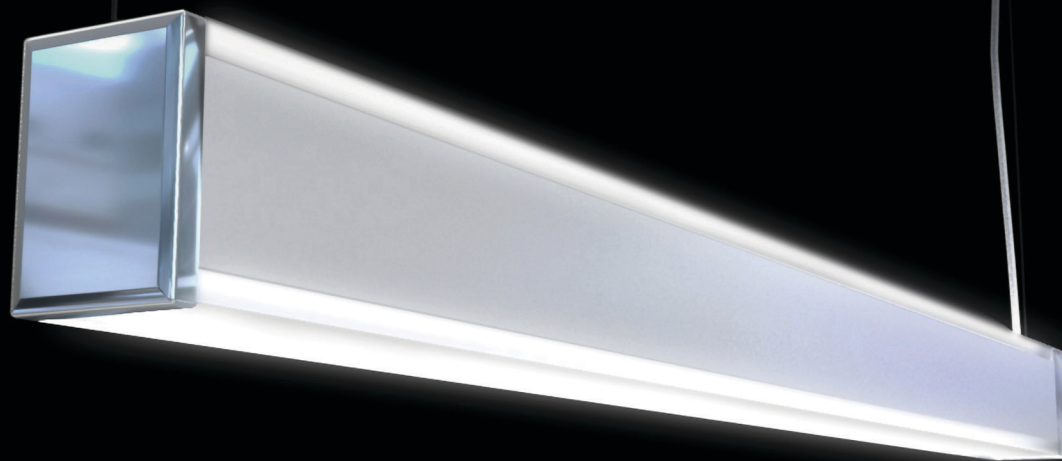

KEY FEATURES

- Extruded aluminum housing
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty

PROUDLY
MADE
IN THE USA

The favorite child of Zeus, a warrior goddess of unsurpassed wisdom and counsel. Artience Lighting captures the essence of the glorious goddess with the Athena, a bidirectional fixture boasting beautifully frosted drop lenses, artfully crafted polished end caps, and tunable white capabilities. Athena's beauty and power are equally at home in an office hallway and a boardroom.

RGBW

TUNABLE
WHITE

EOS (ee-ose)

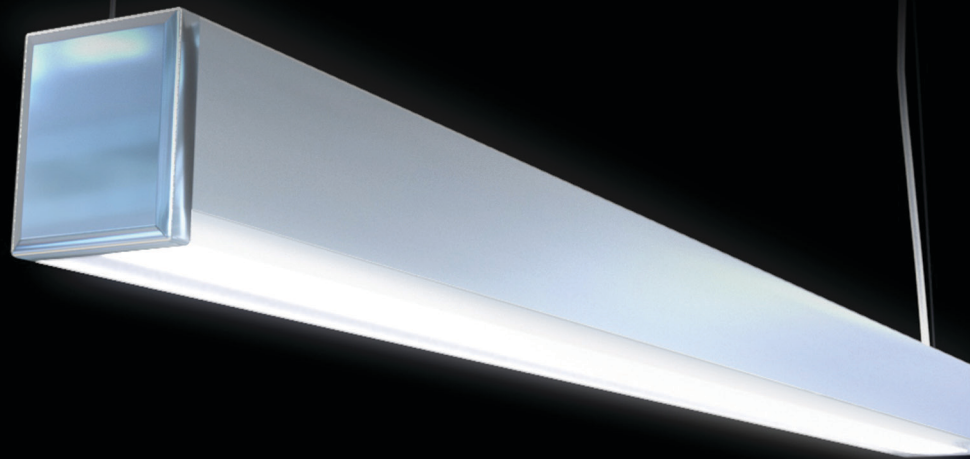

KEY FEATURES

- Extruded aluminum housing
- No diode imaging
- Customizable accent piece
- Made in the USA
- Covered by our 5 year limited warranty

UVC
CAPABLE

The goddess of the dawn who opens the gates of the heavens each morning to allow the sun to come forth and light the day. Artience Lighting has recreated the form of the crowned goddess with the Eos, an exquisitely engineered luminaire crowned with a beautifully frosted drop lens and adorned with a customizable accent piece. Eos' beauty is complimented by functionality; the fixture is UVC and tunable white capable.

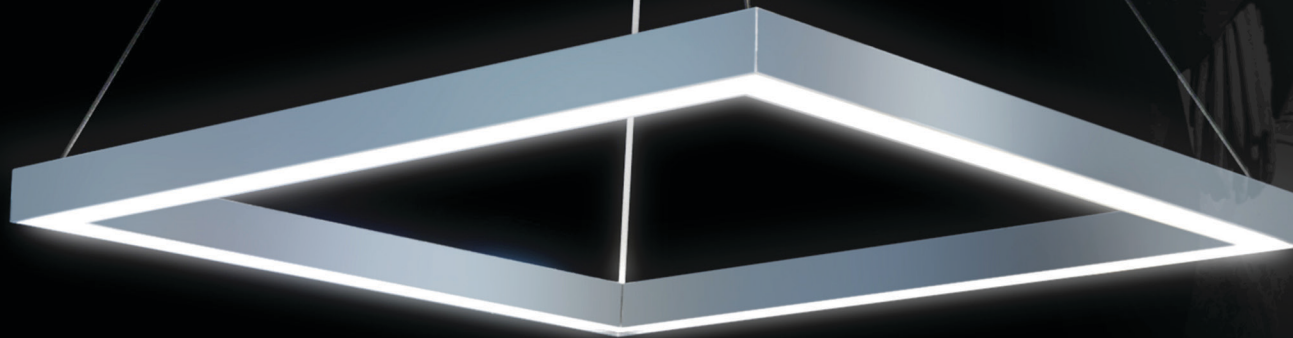

HEMERA (eem-air-aa)

KEY FEATURES

- Available in 3 standard configurations
- Extruded aluminum housing
- Illuminated corners
- Premium LEDs
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty

The goddess of light and the personification of day. Hemera would daily travel across the bronze threshold, lighting the heavens and making seeing-light for all humankind. Now, thanks to Artience Lighting, Hemera, suspended in place, offers her gift of light at your request. Available in: direct, indirect, or direct/indirect lighting patterns; a flush lens or a drops lens; three standard shape configurations and an almost limitless range of customizable options; a full spectrum of color temperatures including RGBW and Tunable White; a wide range of customizable lumen packages; and RAL color matching to fit your design.

HERMES (ehr-mez)

KEY FEATURES

- 4" x 1/2" Wood wings
- Premium LEDs
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty

The herald of the gods whose winged feet allowed him to travel swiftly between the worlds of the divine and the mortal. Artience Lighting has traded Hermes' feathered wings for wings fashioned from natural wood. Hermes brings the warmth, beauty, and tranquility of the outdoors to any design. Available in a wide selection of standard wood options, color temperature selections, customizable lumen packages, and even RGBW and Tunable White lighting, the Hermes is waiting to fly with you.

APHRODITE (aa-fro-die-tee)

KEY FEATURES

- 3.5" x 5" profile
- Polished machined aluminum end caps
- Customizable fotizo
- Tunable white capable

Her name is synonymous with beauty, love, and passion. Artience Lighting has captured her form in the Aphrodite. A linear fixture with proportions fitting its namesake. The unique profile is made all the more alluring by the polished aluminum end caps that adorn it. A customizable fotizo (a dazzling stream of light that runs the length of the fixture) stokes the passions. Aphrodite can also host separate controls for the direct and indirect light options.

ZEUS (zoos)

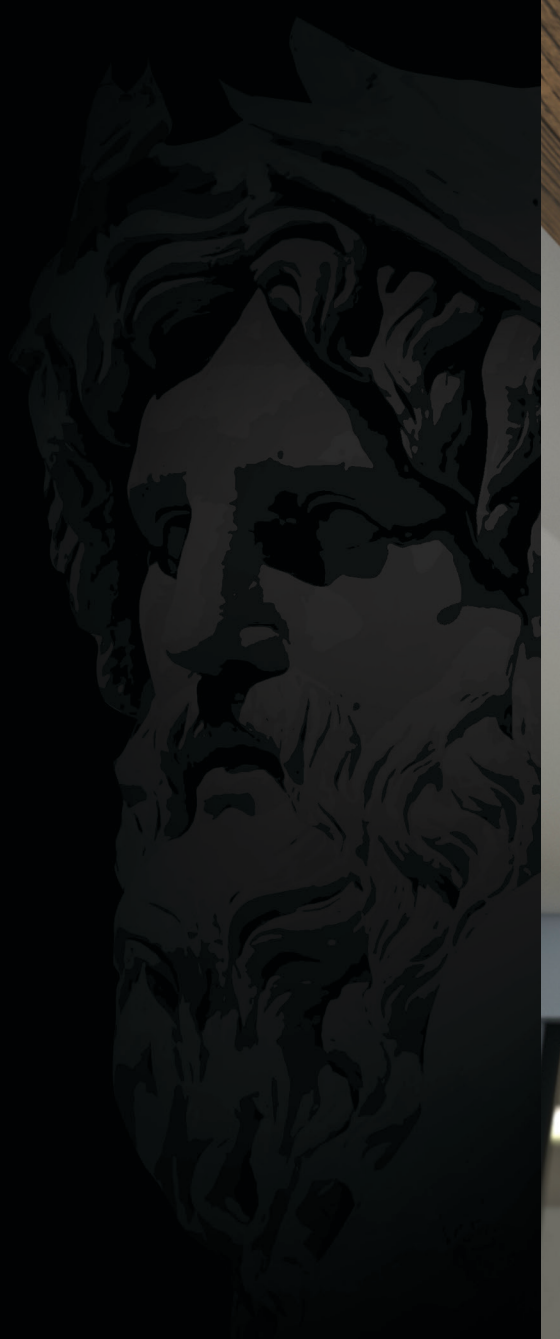

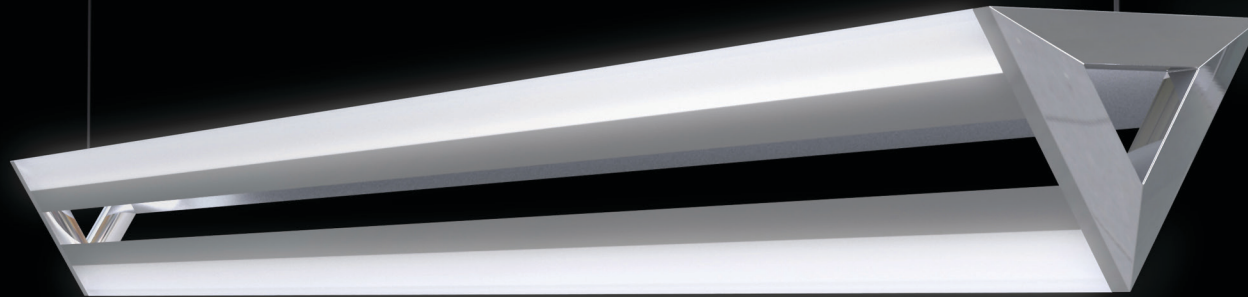

KEY FEATURES

- Extruded aluminum housing
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty

PROUDLY
MADE
IN THE USA

Ruling high atop the world from his throne on Mount Olympus, Zeus, king of the gods, was master of all. Artience Lighting has captured the GRACE, the POWER, and the MAJESTY of the mighty king in their newest fixture, the Zeus. The uniquely designed, extruded aluminum light rails finish into a beautifully machined end cap, detailed in a faceted design rightly fit for a king. The Zeus boasts separate controls for direct and indirect lighting options, as well as the option for tunable white lighting.

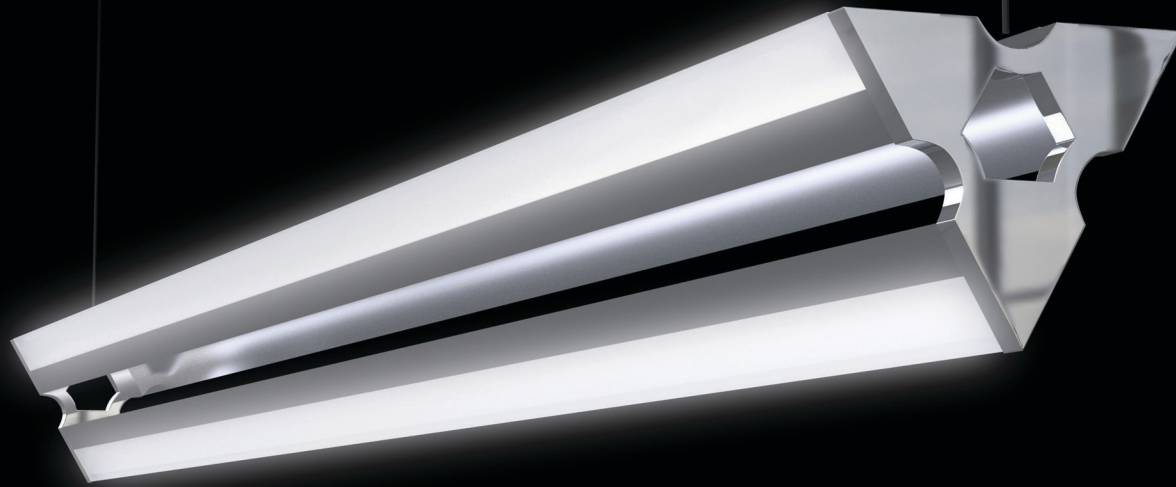

POSEIDON (poh-sahyd-n)

KEY FEATURES

- Extruded aluminum housing
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty

Poseidon, brother of Zeus, god of the oceans and waters, has taken a new form; muscle and sinew have been replaced with extruded aluminum, powerful and efficient LEDs, and spectacularly beautiful machined end caps that are truly worthy of the gods. Poseidon offers tunable white lighting, separate controls for the direct and indirect lighting, and several options to truly customize the fixture to match your needs.

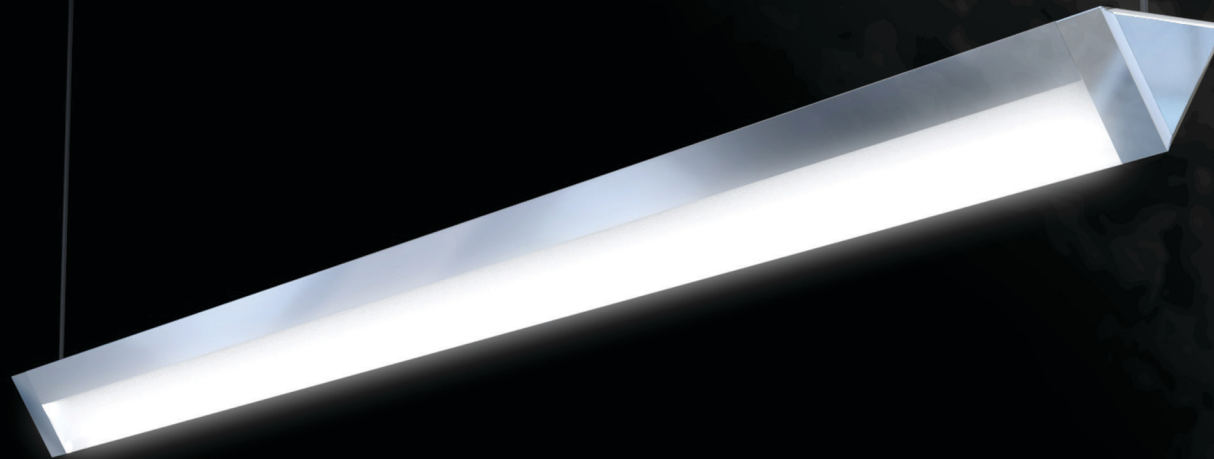

ASTRAPI (ah-strap-ee)

KEY FEATURES

- Extruded aluminum housing
- Precision machined end caps
- Premium LEDs
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty
- Rotation available

Sleek. Powerful. Awe-inspiring. Lighting has long captured the imagination. The Astrapi, lighting bolt, was the weapon and faithful companion of Zeus. Artience Lighting has captured that lightning bolt and molded it into the Astrapi fixture. Boasting polished aluminum end caps, high density acrylic diffuser designed to eliminate diode imaging, and limitless options for customization. Now you can wield the power of Astrapi!

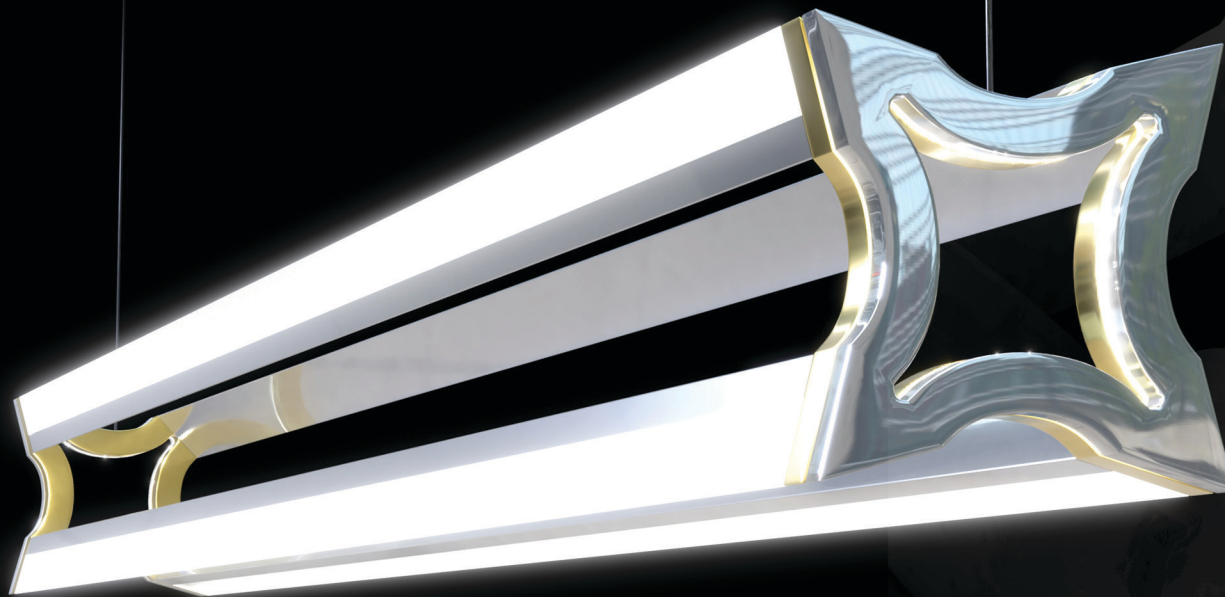

HYPERION (hy-peer-ee-uhn)

KEY FEATURES

- Available in a 5" or 4" profile
- Extruded aluminum housing
- Precision machined end caps
- Premium LEDs
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty

The titan god of heavenly light. Since the time before time, Hyperion has represented wisdom, watchfulness, and light. Hyperion's power and beauty are now at your disposal with Artience Lighting's striking new fixture. Crafted with bold angles from extruded aluminum, precision machined parts, and premium components, the Hyperion is sure to enhance and elevate any design. The Hyperion offers separate switching for the direct and indirect lighting, as well as multiple customizable lumen packages and color temperatures. The Hyperion is available in either a 5" or 4" profile.

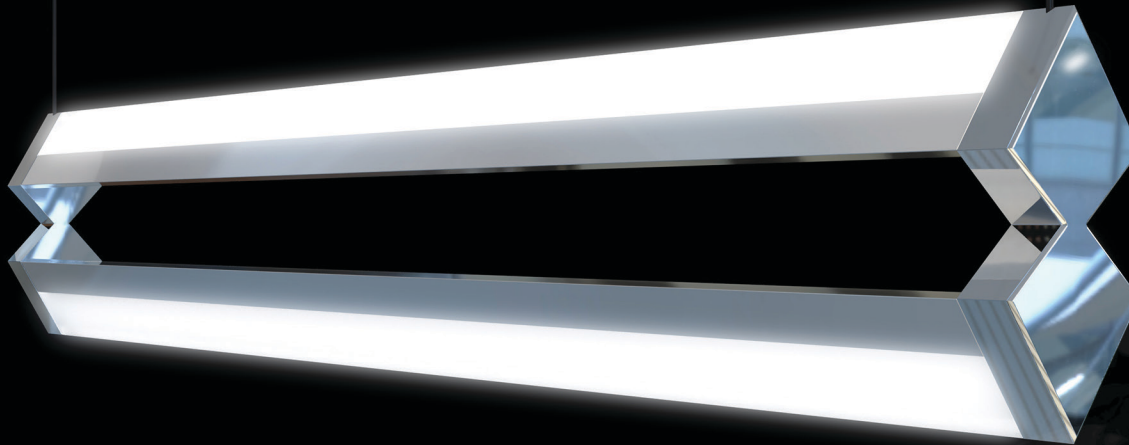

POLLUX (pol-uhks)

KEY FEATURES

- Extruded aluminum housing
- Precision machined end caps
- Premium LEDs
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty

One half of the Dioscuri (sons of Zeus) and the immortal twin brother of Castor, he begged his father Zeus to grant immortality to Castor after the latter had been killed in battle. Zeus honored his son's request by turning the brothers into the constellation Gemini. The duality of the twins is reflected in the mirror image of the Pollux profile. The precision machined end caps give way to graceful rails of extruded aluminum, embellished with high frost diffusers and illuminated by premium LEDs. Available in a host of customizable lumen packages and color temperatures.

CASTOR (ka-ster)

KEY FEATURES

- Extruded aluminum housing
- Precision machined end caps
- Premium LEDs
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty

The other half of the Dioscuri (sons of Zeus) and the mortal twin brother of Pollux, his fate was death until Pollux petitioned Zeus to grant Castor immortality. Zeus accepted Pollux's plea, but on the condition that the twins share the gift of immortality. Artience Lighting represents the dichotomy of Castor's fragmented gift of immortality with the craftsmanship of the asymmetric end caps. These precision machined pieces of art adorn a powerful luminaire capable of lighting the heavens thanks to incredibly efficacious, premium LEDs. Available in a host of customizable lumen packages and color temperatures.

RECEPTION

ATLAS (at-las) *COMING SOON!*

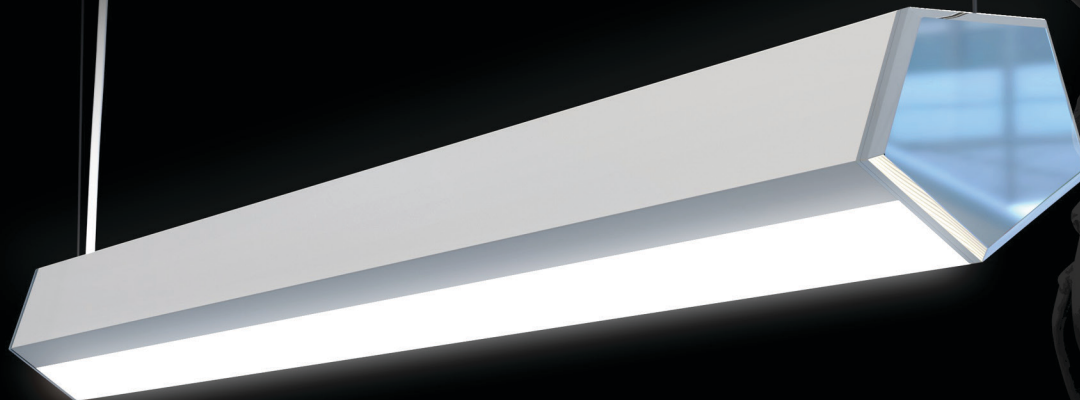

KEY FEATURES

- Flat aperture for direct or indirect lighting
- Extruded aluminum housing
- No diode imaging
- Made in the USA
- Covered by our 5-year limited warranty

PROUDLY
MADE
IN THE USA

From his position at the ends of the earth in far west, Atlas holds the heavens on his shoulders. Artience Lighting has taken the myth of Atlas and reimagined it as a truly unique linear luminaire. You can almost see the titan, braced on one knee, arms stretched wide, shouldering the weight of the celestial bodies as you look at the profile of the fixture. In addition to keeping the heavens and the earth separate, Atlas was a famed mathematician. It seems fitting then to name a sui generis, polygonal luminaire after the titan philosopher.

HESYCHIA (heh-si-kee-ah)

KEY FEATURES

- 12 mm Thick Acoustic Panels
- Class A Fire Rated
- Premium LEDs
- Ni Diode Imaging
- Made in The USA
- Covered by our 5 year limited warranty

The noble daughter of King Thespias and the personified spirit of quiet and silence, Hesychia embodied the desire for peace, order, and tranquility. Hesychia's dominion over noise and chaos are given new life in this namesake fixture. Hesychia's lighting power comes from class leading, premium LEDs through a rich, high-frost diffuser, while the strength of the acoustic ability comes from the robust 12mm, class A fire rated recycled acoustic material. Available in direct, indirect, and bidirectional light outputs; a multitude of stunning material colors and shapes; and a customizable range of light outputs and color temperatures (including tunable white and RGBW).

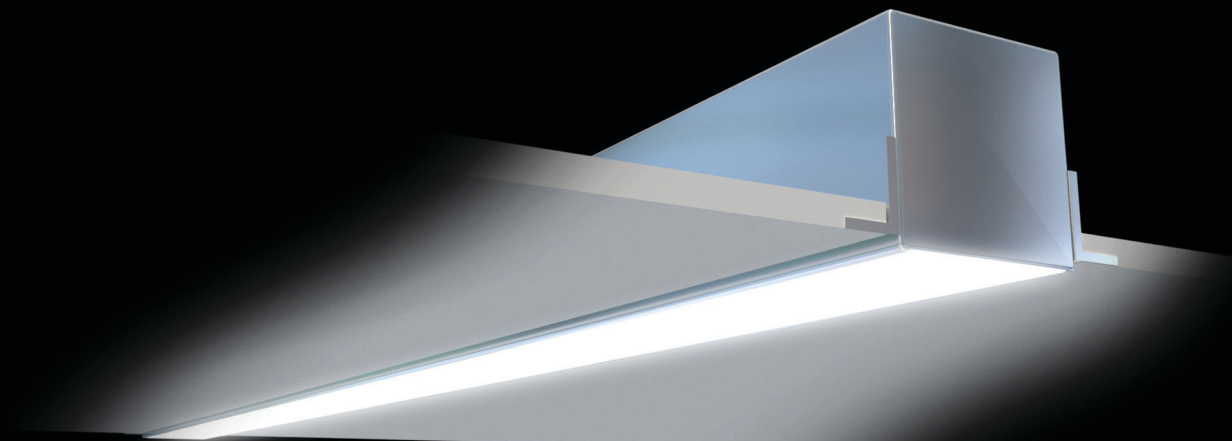

APOLLO (uh-pol-oh)

KEY FEATURES

- Extruded aluminum housing
- No diode imaging
- Made in the USA
- Covered by our 5 year limited warranty

Perhaps the most important of the gods, Apollo would ride his golden chariot across the sky, dragging the sun across the heavens as he raced from the East to the West. Now Apollo can race across your designs as a beautifully crafted, recessed luminaire from Artience Lighting. Apollo's frosted lens ensures no diode imaging as a seamless line of light spanning the length of your imagination.

MOUNTING OPTIONS

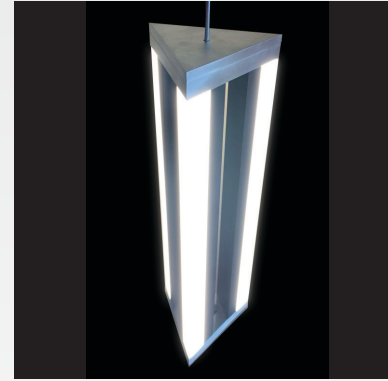

C - The cable suspended option allows our exquisite luminaires to seemingly float in space, thanks to the ultra-thin aircraft cable suspensions. The cable suspended system is complemented with either white or black, 5" diameter canopies. A beautifully machined and polished 5" aluminum canopy is an available option.

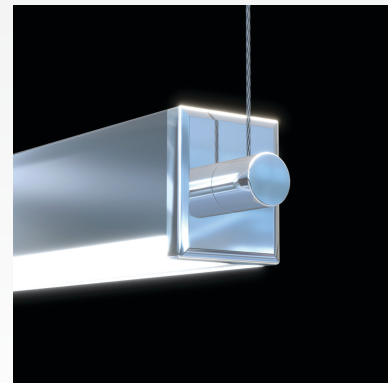

S - The direct surface mount is a sleek and modern option. The luminaire is affixed directly to a wall or ceiling for a visually stunning application.

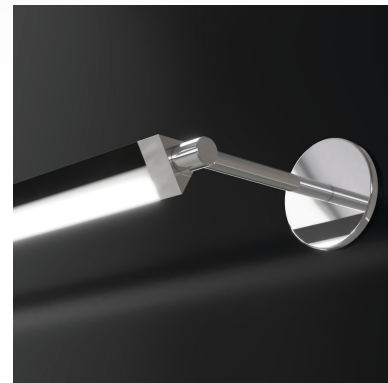

CR - Continuous runs allow your lighting designs to be free from the limitations of standard luminaire lengths. Care and precision mean a seamless transition with no light leaks.

CV The Cable Suspended Vertical option allows for truly dynamic applications of our unique luminaires. Whether individual fixtures are used or constellations the cable suspended vertical option gives you additional flexibility with your design.

R-C The Rotation With Cable suspended option allows you to fine tune the light patterns to match any design. Precision machine components ensure durability and reliable performance.

R-A The Rotation with Arm Mount option combines the functionality of rotation with the sleek and industrial aesthetic of machined aluminum arms.

HYGIEIA IN CUSTOM RED

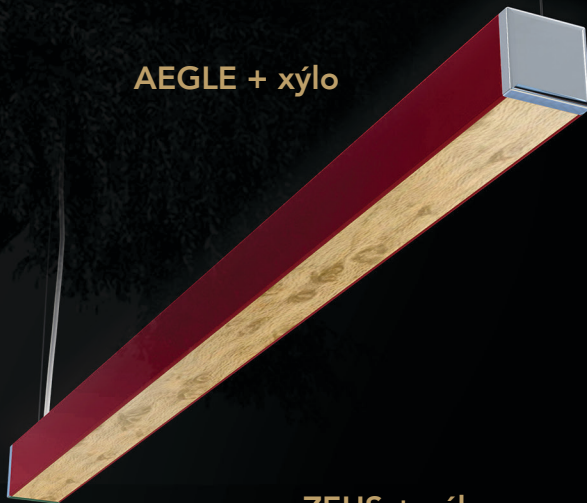

THE BEAUTY OF NATURE

Artience Lighting + xýlo (see-low)

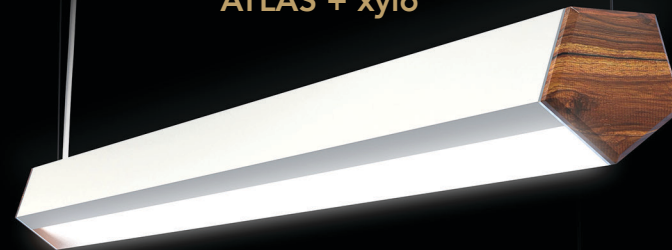

Artience Lighting extends the beauty of nature indoors with xýlo. Wood has a beauty and a warmth that elevates our fixtures while at the same time affecting positive changes within a space. Whether it is the sound dampening effect of wood, the calming effect that it can have on humans, or just the sheer beauty of exotic woods hand crafted into works of linear-lighting art, xýlo will give you countless options to meet your design needs.

There is no wrong way to add xýlo to an Artience Lighting luminaire. Imagine the beauty of teak end caps accented with polished aluminum trim. How amazing might birdseye maple look as an accent piece when paired with an anodized red Aegle? Or substituting the wood grain altogether for a high gloss finish of bright color for a mid-century modern flair? If you have a custom idea for xýlo, contact the factory and let us dream with you.
